

How to install and use the picture function for the VAG Prog and USA Prog

1. Download the picture.rar from our website at <http://www.smelecom.com/sm/usa-down.htm>
2. Extract the picture.rar, and then copy the picture folder to the SD card.
3. Whenever you click the "picture" button within the software, the picture will be shown on the screen.
You can operate the view of the picture by using the following keys:

The PgUp for zooming in.

The PgDn for zooming out.

The up arrow button for moving up.

The down arrow button for moving down.

The left arrow button for moving left.

The right arrow button for moving right.
